## DETAILED ACTION

### *Election/Restrictions*

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-5, drawn to a piezoelectric drive.

Group II, claim(s) 6-10, drawn to a friction element.

Group III, claim(s) 11-17, drawn to a circuit arrangement.

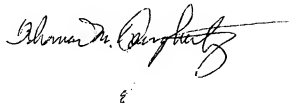

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the invention of Group I does not require nor does it include the friction element of Group II nor does it require or include the drive circuit of Group III. Additionally, the friction element of Group II does not require or include the drive circuit of Group III or vice versa.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Direct inquiry concerning this action to Examiner Dougherty at (703) 308-1628.
